

POM3: QUALITY POLICY STATEMENT

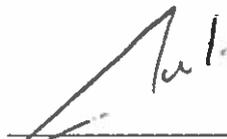

The Quality Management System described in the Manual, complies with ISO 9001 that identifies and addresses the main risk-based processes of the company’s activities and the control thereof.

The Quality Management System extends to ISO29001 for the design, development, production, installation, and service of products for the petroleum, petrochemical, and natural gas industries. It includes additional requirements with an emphasis on defect prevention and the reduction of variation and waste from service providers.

I, Shane Chester, as Managing Director, and all AESSEAL employees are committed to the continual review, development, and improvement of all aspects of our business, in particular: -

- The company are fully committed to ensure adequate resources remain in place to continually improve the Quality Management System.
- The company is fully committed to ensure customer satisfaction in line with the AES purpose.
- The company supports the establishment and review of quality objectives that ensure continuous improvement.

The AES over-riding philosophy is to put the customer first and to ensure that their needs and expectations are met in full and even exceeded.

 Shane Chester – Managing Director
