

POM 4: ENVIRONMENTAL POLICY STATEMENT

The company's principal product line helps customers meet their environmental and safety obligations by preventing leakage of fluids and gases from rotating equipment. Our innovative technical solutions are aimed at saving valuable resources such as water.

The company recognizes the importance of environmental issues and takes a holistic view of the impact of its activities on the environment. Thus, the company does its utmost to use sustainable resources such as solar power for day-to-day operations.

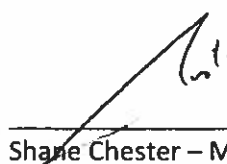

AES is committed to the implementation of an Environmental Management System in accordance with ISO 14001 that identifies and addresses the main environmental impacts.

AES also has a very strong action plan to ensure that it meets the target climate change mitigation and adaptation as well as the protection of biodiversity and ecosystems. AESSEAL Global sought independent verification of its emissions, as well as the balancing impact of the emissions avoided by use of the company's products in major industry. AES South Africa strives to comply with this global directive.

I, Shane Chester, Managing Director, and all AES EMPLOYEES are committed to the continually review, development and improvement of all aspects of our business, in particular:-

- Prevent pollution arising from the activities, products and services.
- Meet all applicable environmental legal and other requirements.
- The company operations are in line with ISO 14001, a standard, which ensures that the environmental requirements are met.
- Review company environmental objectives and targets to ensure the environment is protected.
- Continually improve overall environmental performance with regard to its activities, products and services.

The AES over-riding philosophy is to put the environment first, and to ensure that the needs and expectations are met in full and even exceeded. This manual together with the current environmental objectives will be made available to interested parties on request.

Shane Chester – Managing Director
